Adrian The Dream Weaver Joins Our Team

Hair & Accessories Inc, a leading provider of hair extensions since 1994 proudly announces that Adrian The DreamWeaver (www.hairextension.com) joins our team to offer training to licensed cosmetologists and beauty salons in the correct selection and application of hair extensions.

Adrian offers two courses at his Dallas Academy of Hair Extension Training. For individuals there is an 8-hour class, held monthly, that takes the attendees through the use of the Dream Weaver hair extension iron and speed clip, two tools that reduce the application time by up to 30%.

An educational portion of the course outlines the steps needed to determine whether a client is suitable for hair extensions and includes work on the techniques for attaching the hair extensions and color blending in the new hair.

A hands-on portion of the course, using mannequin heads, will include training in the removal of hair extensions in addition to practising the hair extension attachment techniques. The course also covers important business aspects such as consent and release forms, client home care instructions problems and their correction, and marketing and promotion.

There is also a course for members of the same beauty salon where training is tailored to meet the needs of the individual salon.
